DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 11/20/09 has been entered.

Response to Amendment

2. The amendment filed on 11/20/09 has been entered. Claims 18, 28, and 29 have been amended. Claims 1-17, 23-27, and 30 have been previously cancelled. Claim 31 has been added. Claims 18-22, 28, 29, and 31 are currently pending in this application, with claims 18 and 31 being independent.

Claim Objections

Claims 18 and 31 are objected to because of the following informalities:

- a) On line 17 of claims 18 and 31, replace “a” with --the-- before “first” in order to provide proper antecedent basis to “first idle time slot” as it was previously recited in the claims; and
- b) On line 19 of claims 18 and 31, replace “a” with --the-- before “second” in order to provide proper antecedent basis to “second idle time slot” as it was previously recited in the claims.

Appropriate correction is required.

Claim Rejections - 35 USC § 112

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

4. Claims 18-22, 28, and 29 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which Applicant regards as the invention.

More specifically, lines 4, 7, 8, 10-12, 17, 18, 20, and 21 of claim 18, respectively recite, “transmitting a detecting result”, “a transmission”, “said transmission”, “said transmission”, “a transmission”, “a transmission”, “a transmission”, “a transmission”, “a transmission”, and “a transmission” and it is not clear whether or not the transmission as recited on lines 7, 8, and 10-12 or in lines 17, 18, 20, and 21 is the same or a different/another transmission as that recited on line 4 of “transmitting a detecting result”. Because the scope of the claim cannot be determined, the claim is considered vague and indefinite.

Claims 21, 22, 28, and 29 are also rejected by virtue of their dependency on claim 18.

Allowable Subject Matter

Claim 31 is allowed.

5. Claims 18-22, 28, and 29 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.
